Kenya and its co-hosts Canada and Japan are inviting the world to Nairobi for the first global conference on the sustainable blue economy.

Over 4,000 participants from around the world will meet from November 26 to 28, 2018 at the Sustainable Blue Economy Conference to learn how to build a blue economy that:

- Harnesses the potential of our oceans, seas, lakes and rivers to improve the lives of all, particularly people in developing states, women, youth and Indigenous peoples
- Leverages the latest innovations, scientific advances and best practices to build prosperity while conserving our waters for future generations

The conference will capture concrete commitments and practical actions that can be taken today to help the world transition to the blue economy.

The University of Nairobi is one of the sponsors of the Blue Economy Conference.
